BMC 5LPM OXYGEN CONCENTRATOR

Breathing Innovation. Delivering Life.

Experience the next generation of oxygen therapy with the BMC Oxygen Concentrator—engineered for reliability, efficiency, and comfort.

The BMC Oxygen Concentrator represents trust, care, and innovation by delivering consistent oxygen therapy for home, clinical, and patient care, promoting healthier living.

KEY FEATURES:

- **Powerful Kernel:** Advanced core technology ensures consistent performance and dependable oxygen delivery.
- **Lithium Molecular Sieve:** Stable and efficient design for superior filtration and purity.
- **High Adsorption Efficiency:** Maximises oxygen concentration while minimising energy use.
- **Stable Performance:** Built to run smoothly, day after day, without interruption.
- **Sustainable Oxygen Output:** Continuous supply of high-concentration oxygen, supporting long-term health needs.
- **High Oxygen Purity** 93%±3%
- **Air Leakage Compensation**
- **Flow Rate:** 0.5 - 5 L/Min
- **Application:** Medical Purpose
- **Weight:** 18 KG (approx)
- **Packaging Type:** Box
- **Size:** 388 x 279 x 607 mm
- **Packaging Size:** 1 Unit
- **Sound Level:** <= 55dB(A)
- **Output Pressure:** 50 ± 10 kPa
