

# F5A Full Face Mask

## SIMPLE STRUCTURE, LIGHTWEIGHT WITH ANTI-ASPHYXIA VALVE

The full face mask is capable of auto-adaptation to the nose bridge. Simple structure and light weight provide you with more comfortable and effective therapy.

### **Auto adaptation**

The cushion's groove adapts to the nose bridge, maintaining low air leakage and limited face pressure.

### **Liberty of vision**

Based on the forehead frame-free design, users can easily embrace more vision.

### **Anti-asphyxia valve**

To ensure security, the position of the anti-asphyxia valve is adjusted to achieve more functions on a smaller elbow.

### **More comfort**

Due to the single-layer transitional design, the cushion touches the nose and face softly.

Country of Origin: China  
Manufacturer: BMC Medical Co., Ltd.

Item Weight: 200 g  
Item Dimensions LxWxH: 12.7 x 12.7 x 17.8 Centimeters
